ABOUT ME

I am a freelance artist, designer and campaigner, recently graduated from MA Visual Arts: Fine Art Digital at Camberwell College of Arts, University of the Arts London. Prior to this I studied BA (Hons) Graphic Design at Camberwell College of Arts, graduating in 2017. I am currently part of the Work Exchange Programme at The Kiln Rooms, a ceramics studio in Peckham, where I work one day a week training as a technician; I also freelance as a workshop tutor and assistant at 3rd Rail Print Space, an open access screen-printing studio in Peckham. I have previously run arts-based workshops at UAL and at Arebyte Gallery, and have a wide range of experience dealing with all age groups. Recently I have been involved with the Make Our Rights Reality Campaign, working to improve young people's access to mental health services across the UK- as part of the working group creating a new manifesto for the campaign, as part of the group of young people consulted on the design of the new Rights Advocate online training Hub, attending last years Labour Party Conference on behalf of the campaign (presenting to MPs and other young people) as well as being commissioned by the campaign to design a poetry anthology put together by other young people.
